Hello competitors and welcome to the 2025 Dominion of Canada Rifle Association's Canadian Target Rifle National Championships, our 141st.

Since our establishment in 1868, the DCRA has been proud to promote and support marksmanship throughout Canada, and it is again our great pleasure to have not only target rifle competitors from across Canada but from around the world. For our third year running, we are holding these championships at the Mons Rifle Range located at Canadian Forces Base Borden, part of our effort to broadening the visibility of our events throughout Canada. A return to Connaught Ranges will be part of the future for our National Championships in all our disciplines. In the interim, locations like CFB Borden provide excellent venues for our annual matches.

A great deal of effort and support by many individuals and organizations have taken place to ensure a successful event. We are appreciative of the hard work over many months that has been completed by volunteers drawn from our Ontario members as well as the support of the Ontario Rifle Association all under the umbrella of our Chair for the Shooting Activities Committee, Mr Steven Spinney. We are also very thankful for the support of the Department of National Defence and the Base Commander and staff of CFB Borden in ensuring the ranges and facilities were available for our use.

Lastly, we encourage you to enjoy fully the comradeship and friendly competition which have become such an integral part of our National Championships and fundamental to the nature and health of our sport. We are confident that everyone involved with this event will certainly do their best to assist you and to make your stay a pleasant and memorable experience in Simcoe County!

Best wishes for safe travel, good sportsmanship, good comradeship, and good shooting from the DCRA Council Chair.

To win the award, a competitor, regardless of Classification, must have been nominated by his or her Provincial Rifle Association or NDHQRA/NCRRA, attend the National Matches conducted by the DCRA in the year of his or her nomination, fire the full course of individual target rifle events in the Grand Aggregate, demonstrate high standards of sportsmanship, and be of good character. To determine the winner, a series of events will be selected from the matches in the Grand Aggregate, by a special panel of the DCRA Executive. Their selected course of fire shall not be announced prior to the start of the TR Matches. Since sportsmanship, character and shooting performance shall be the basis for this award, it is most important that the PRAs and NDHQRA/NCRRA ensure that nominees will attend the National Matches in the year of their nomination and that their competence as shooters affords them a fair chance of top performance at the National Matches and, hence, a fair chance to win the award.

The qualifying conditions for nomination of a candidate for the Des Burke Award shall be determined by the PRAs and NDHQRA/NCRRA and, need not be the same for each such association. The common denominator for all candidates will be shooting performance at the National Matches.

The Des Burke award is open only to 'Canadians' as defined in the Rules. An individual may be nominated and win the award more than once.

Thanks to his outstanding leadership and diplomacy the DCRA came through this contentious period a united and stronger Association. He led the Association's Building Committee in the construction of our new headquarters building and spearheaded the fundraising campaign, which succeeded in raising in excess of \$220,000 over a two-year period.

The **Canada Club Cup** was donated to the Canadian Wimbledon Team Commandant by the Canada Club of London in 1886 and was presented to Trooper Beatty, the high aggregate team member that year. A review of the annals reveals that the provision of a trophy by the Canada Club of London was for some time an annual occurrence and it was awarded to Canadian Team members for varying accomplishments.

In 2005 it was brought to the attention of the DCRA that the 1886 trophy was available on auction on eBay. Through the generosity of donations from DCRA members, the trophy was bid for and purchased.

In 2006 it was rededicated in honour of the Late Lieutenant General W. A. Milroy.

Team Competitions - Precedence

In team competitions scheduled for the same time, the order of precedence for team personnel selection will be in accordance with Rule 6.07(3).

Team Competitions – Prizes

In certain team competitions, the number of prizes is determined by the number of teams entered. These numbers are shown in the conditions for each match. No prizes will be awarded if only one team, or if less than the specified minimum number of teams, enters. Under these circumstances, the full entry fee will be refunded for concurrent team matches. For shoulder-to-shoulder matches, teams may opt either to withdraw from the match, with full refund of the entry fee, or to fire the match's course of fire, with a 50% refund of the entry fee.

International (Overseas) Teams and Visitors from outside Canada

Provided the provisions of DCRA Rules have been met, visiting teams do not have to declare an "official squad" in advance.

Classification of competitors from outside Canada will be in accordance with DCRA Rules (Chapter 5.04).

Countries from outside Canada wishing to be considered as a group for team competition must submit their request, in writing, to the Executive Committee via the Match Director not later than 48 hours before the deadline for entries to any competition in which they might wish to participate and not later than 1800 hours Sunday.

Official Provincial Teams

The list of names and competitor numbers of the members of the official team must be handed in to the DCRA Office in duplicate, not later than 1800 hours Monday.

Procedure for Team Captains

1. Match entries must be made by the time stated on the previous pages. This is to ensure that adequate targets and staff are available.
2. For shoulder-to-shoulder team matches, the names and competitor numbers of team members, including all team officers, coaches, and reserves as well as shooters, must be given in writing on the proper form, obtained from the DCRA Office at time of entry, to the Range Officer conducting the match, at the time of rifle testing and/or target allocation on the range.
